MARITAL STATUS-UNMARRIED

## EXPERIENCE AND INTERNSHIP

Software Engineer trainee

**Impelsys**

📅 Nov 2022– Sep-2023

📍 Bangalore, India

- Successfully completed a comprehensive training program in web development technologies, gaining proficiency in the following: - React - HTML - CSS - JavaScript - Node.js - Express.js - Bootstrap
- Collaborated with colleagues on projects to apply newly acquired skills.
- Demonstrated a strong commitment to learning and staying up-to-date with the latest web development trends.
- Participated in team meetings and contributed to project discussions, fostering a collaborative work environment.
- Played a key role in an internal project for website CMS. Worked in the frontend team as developer, for which I created Dashboard for admin and EUP websites using reactjs.

## ACHIEVEMENTS

- 3rd position in an inter-college electric circuit solving Competition Organised by IEEE
- 2nd position in Idea Pitching Competition Organised by IEEE
- all India 5th and all Kerala 1st position at effi cycle competition conducted by SAE India

## CERTIFICATIONS

- Python Programming- NPTEL
- React Native - Udemy
- JavaScript - Udemy

## LANGUAGES

Malayalam  
English

# PROJECTS

---

## 1 MERN Chat App

Create a model of chatting website It's my latest project Currently I am working on it's deployment, this web application done as a mern stack application using chakra ui for frontend and socket.IO for real time setups- Done as part of MERN Stack learning

---

## 2 EVENTS MANAGEMENT WEBSITE

Create a model of events management website It's my latest project Currently I am working on it Completing the frontend side using react features needs to complete backend- Done as part of reactjs learning

---

## 3 SHOPPING SITE MODEL

Create a model of an online shopping site using react features with the help of fakestore api just frontend setup only- Done as a part of reactjs learning. Completed a similar site using Node js and express js using Mongodb as database

---

## 4 BMI CALCULATOR

Create a model of BMI Calculator site using react features- Done as a part of react js learning

---

## 5 CONTACT BOOK

Create a model of Contact book using react features- Done as a part of reactjs learning

---

## 6 TO DO APP

Create a model of TO DO App using react features- Done as a part of reactjs learning

---

## 7 EXPENSES TRACKER APP

Create a model of expense tracker App using react native features- Done as a part of react native learning

---

## 8 GOAL APP

Create a model of TO DO like App using react native features- Done as a part of react native learning

---

## 9 MEALS APP

Create a model of Meals app containing details of different dishes using react native features- Done as a part of react native learning

---

## 10 MINI GAME

Create a small game called Guess My Number this app will guess the number provided by the user based on some questions using react native features- Done as a part of react native learning

---

## 11 SOLAR BATTERY CHARGER CIRCUIT

Electric Charging Circuit For Charging All Kind Of Batteries From Solar Panel- B.Tech mini project

---

## 12 EFFI CYCLE

Design and fabricate an energy efficient entirely human-powered three-wheeled vehicle- National level vehicle design competition conducted by SAE

---

## 13 SMART PROSTHETIC ARM

As a part of our B.tech main project we are building a prosthetic arm for an amputated person which is controlled by mind signals called EEG -B. Tech main project
